

G-100-158 – 1? Lasdrop Shaft Seal

SKU: G-100-158

Description

- 1? Shaft, 1 5/8? Stern tube, Single water injection The Gen II uses a 316-marine grade stainless steel spring to provide pressure to the seal surfaces. Together, the spring and seal ring rotate along with the shaft, and remain secured in the Clamp/Pressure housing. The Clamp/Pressure housing is secured to the shaft without the use of set crews preventing galling or damage to the shaft. Dual u-cup seals rotate on the shaft and are seated inside of the seal ring to prevent the passage of water to this point.
